PRINCIPAL MISSIONS

Inform the competitors and play a mediating role at all times.

This post must be entrusted to an official in possession of a license issued by their ASN as it implies certain knowledge of the General Regulations. They may attend the meeting of the panel of the Stewards, in order to keep abreast of all the decisions taken.

The competitors' relations' officer must be able to be easily identified by the competitors.

PRESENCE DURING THE RALLY

When the secretariat is opened, they should have the secretary of the meeting draft a schedule of their duties which shall be posted on the Notice board of the rally and which shall include:

- Presence at scrutineering.
- At the Secretariat of the Meeting.
- At the Start of the rally.
- At regrouping halts.
- In the Parc Fermé at the end of sections.
- Near the Parc Fermé at the finish (the latter being dependent on the rally timetable).

Function

- Give accurate answers to all questions asked
- Provide all information or additional clarifications in connection with the Regulations and the running of the rally.

Mediation

Avoid forwarding questions to the stewards, which could be solved satisfactorily by a clear explanation, with the exception of protests (for example, clarify disputes over times, with the assistance of the timekeepers).

The competitors' relations officer shall refrain from saying anything or taking any action, which might give rise to protests.

Appendix 2 - Specific conditions for Group T2 and T4 vehicles

On the vehicles in these categories, the following parts:

- Gearbox,
- Transfer box,
- Front axle and
- Rear axle,

Must not be replaced and/or dismantled, and the engine block/lower casing assembly must not be separated.

The competitor must provide holes with a minimum diameter of 1.5 mm allowing the passage of the sealing wires (which must be in place), to prevent:

1. The changing of complete parts;
2. Dismounting for repairing these parts (piercing the lugs on housings, heads of screws on the main and subsidiary housings, etc.).

These holes must be easily accessible for the Scrutineers so that they can seal the parts without difficulty.

Should a competitor present his vehicle for scrutineering without having already pierced the holes for sealing as specified in the present regulations, he will not be allowed to take part in this category. All underbody protections must be removed before scrutineering to facilitate access.

The parts that cannot be changed and/or repaired are:

- Complete front and rear axles (housings, axle nose, banjo, all internal mechanical parts, etc.) with the exception of the axle shafts and cardan joints;
- Complete gearboxes (main and subsidiary housings, all internal mechanical parts, etc.);
- Complete transfer boxes (main and subsidiary housings, all internal mechanical parts, etc.);
- Engine block complete with rods and lower engine housing;
- Bare cylinder head.
- Turbo(s) if so equipped.

Only the following may be separated (on condition that this can be done without removing the seals) in order to carry out repairs:

- Cylinder head and block [for cylinder head gasket(s) and valves]
- Block and clutch housing (for complete clutch).

In order not to be penalised for the possible loss of seals, the competitor may request the Scrutineers to add seals in those spots, which he deems vulnerable.

The absence, whether notified or not, of an identification mark concerning the sealed parts will result in the exclusion of the vehicle from the T2 category; however, if the Stewards so decide, the competitor may continue to race in Group T1.

For the T4 category, a fixed penalty of 50 hours will be applied. The new parts, which have been replaced, will be sealed again.
